MSIB (38-10) – SHOALING IN OSSAWBAW SOUND, GEORGIA

Issued: 30APR 2010/1530

Expires: TBD

Sector Charleston has received a report that shoaling has been observed in Ossabaw Sound channel, from the North side of the channel between Ossabaw Day Beacon R10 and R12 extending 150 yards south into the channel at a depth of 6ft or less. The paper chart shows a depth of 23Ft of water, which is actually 6ft or less. All Mariners are advised to transit the area with caution. For any other information please contact Sector Charleston's Waterways Management Division at (843) 720-3274 or the 24 Hour Command Center Line at (843) 740-7050.
