

MARITIME SAFETY AND SECURITY BULLETIN 01-10

January 20, 2010

MSU Savannah Organizational Changes

MSU Savannah is restructuring in order to more efficiently perform its missions. The following changes are effective immediately:

- The **Port Operations Division** has been established in the Response Department. This division is responsible for Marine Environmental Protection, Facility Inspections and Container Inspections.
- **MICO-24** has been established as the operational planning arm of the unit's Planning Department.

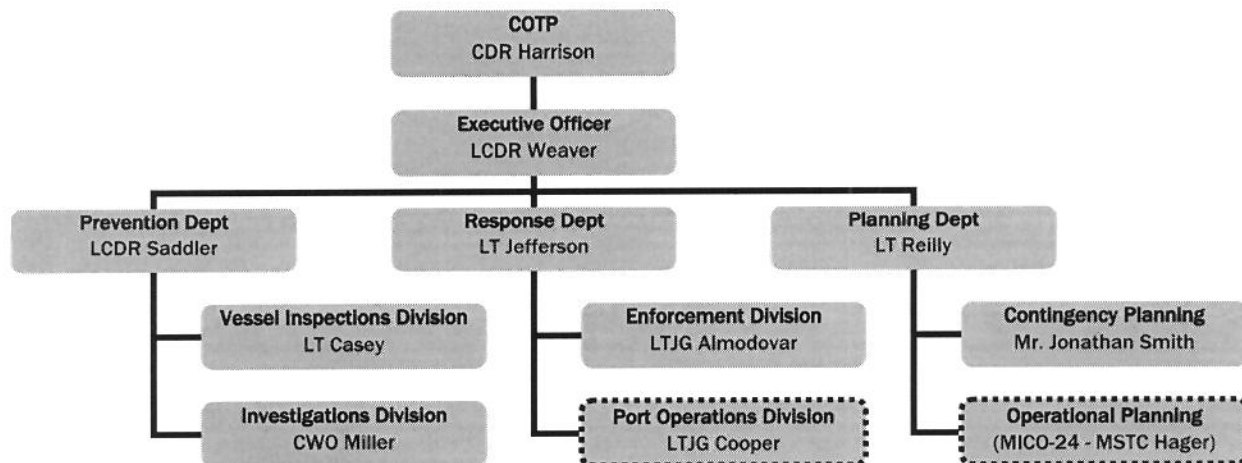

Diagram illustrates organization's operational structure

This change will be in a transition period for 30 days. Facility owners and operators may continue to work through the Planning Department for extraordinary issues during this time but should expect to work through the Response Department as soon as possible.

Sincerely,

L. P. HARRISON, JR.
Commander, U. S. Coast Guard
Captain of the Port
